Michell's "Far Superior
Many Heart Celery"
Leads them all.

5 lbs.

One of our many unsolicited testimonials on
"Michell's Far Superior Many
Hearts" Celery Seed.

November 25th, 1899.

Though I have grown celery many years
I have never had such a fine crop as this year,
grown from your "MICHELL'S FAR SUPER-
IOR MANY HEARTS" and Improved WHITE
PLUME. The first named sort for Winter use,
and the White Plume for early Fall use.

Respectfully yours,
D. L. PELTZ,
Market Gardener, Falls of Schuykill, Phila.

THIS strain is recommended to all growers of CELERY. It is of
fine nutty flavor, produces plenty of heart (which is now the
most sought after point), is an excellent keeper over winter, in
fact preferred to the well-known Golden Dwarf variety. Grows
about the same height as Golden Dwarf.

Price 15c. per ½ oz.; 25c. per oz.; per ½ lb. 80c.; $3.00 per lb.

Our New Tomato for 1900

Livingston's

"Magnus"

Similar in color to Beauty and Acme. It is thicker, heavier, and more solid than either of the above, making it easily the most handsome sort in cultivation.

The form is perfect, uniform, large and attractive. Flesh is very firm. It is a robust grower, with short joints, setting its fruit clusters closer together than most varieties, and is therefore a heavy cropper. The fruits are very deep from stem to blossom end, many of them being almost globe shaped. It ripens evenly, does not crack about the stem; and the flavor is most desirable.

We have tested it for several years for staking up in the open fields, as well as for forcing in Greenhouses, and we believe it to be entirely unequalled for such purposes. We offer it in the expectation that it will add to our reputation as introducers of New Tomatoes.

Prices: Per pkt. 15c.; 8 pkts. for $1.00

Michell's "All Right" Spring and Summer Lettuce.

Michell's "All Right"

Spring and Summer Lettuce.

We cannot recommend this too highly as one of the very best Lettuces yet sent out. It is of the Butter type, very solid, good size head of delicious quality. Desirable as an early variety, but most of all it stands the heat better than any other variety we know of. 7c. per pkt.; per oz. 20c.; 60c. per ½ lb.; per lb. $2.00.

Michell's Dandy Extra Early Peas.

Michell's Dandy Extra Early Peas.

Without doubt this is the finest, most satisfactory Extra Early Pea on the market. For a number of years this seed has been most carefully selected from the Eureka Extra Early, and it is now considered to be the most prolific and most profitable variety to grow. It is several days earlier than Eureka Extra Early. Price 20c. per qt.; 60c. per ½ peck; $1.10 per peck; $4.00 per bushel.

NOVELTIES IN FLOWER SEEDS FOR 1900

For a Complete List and Illustrations of Novelties see our Retail Catalogue.

New Christmas Tree Aster. Entirely distinct variety. The branches stand out horizontally instead of erect as on other types. The plants attain a height of 20 inches and measure 24 to 28 inches across. It blooms very early, and is a most profuse bloomer.

White. 15c. per original pkt.; 4 pkts. for 50c.
Pink. 15c. per original pkt.; 4 pkts. for 50c.

New Giant Victoria White Aster. A new and very large flowering variety; the flowers measure 4½ to 5½ inches in diameter, and are very double. Very desirable for pot or outside culture. 15c. per original pkt.; 4 pkts. for 50c.

New Pink Ostrich Feather Aster. A most beautiful new variety, flowers very large, and are valuable, especially for cut flowers. It is also a splendid sort for pot culture. 15c. per original pkt.; 4 pkts. for 50c.

New Calendula (Pot Marigold) “Favorite.”
Pretty counterpart to the well-known Pot Marigold “Meteor.” While the latter produces flowers of a deep orange, with straw-colored stripes, those of our new variety are of a light sulphur, striped with creamy white in the greatest regularity. 15c. per original pkt.; 4 pkts. for 50c.

New Sweet Sultan Centaurea Imperialis.
This is doubtless the best “Sweet Sultan” for cut flower purposes, producing very large, sweet-scented flowers. The flowers are supported by strong, long stalks and have an extremely long duration. Annual, easy to cultivate, flowers continually from spring to autumn; it deserves a prominent place in all the cultures of cut flowers. The Florists’ Exchange, of New York, No. 32, of 12th of August, 1899, writes, speaking of Novelties: “The premier place must be assigned to Centaurea Imperialis, which is one of the most important introductions of the present decade. The plant is very vigorous, growing nearly four feet high, easy to grow and literally covered with enormous flowers. The stems are long enough to satisfy the most exacting ‘Belle of New York.’”

Alba, Pure White. 25c. per trade pkt.; $1.25 per oz.
Favorite, Brilliant Pink. 25c. per trade pkt.; $2.00 per oz.
Lilacina, Lilac Blue. 25c. per pkt.; $1.25 per oz.
Choice Mixed. All colors. 25c. per pkt.; $1.00 per oz.

Three New Mammoth Verbenas.
These comprise the latest and up-to-date improvements in Verbenas, and will give the best satisfaction. Both the trusses and flowers are the largest yet obtained.

Scarlet Shades. Containing the white-eyed, also solid colors—20c. per original pkt.; 3 pkts. for 50c.
Pink and Carmine Shades. Extremely beautiful. 20c. per original pkt.; 3 pkts. for 50c.

“Firefly.” Shining red flowers, with large pure white eye. 20c. per original pkt.; 3 pkts. for 50c.

NEW CYCLAMEN
“Butterfly”
(See Illustration).
Received First Prizes Wherever Exhibited.

This is the most magnificent type ever sent out. Entirely new and distinct from the other cyclamen; will be a ready seller next autumn when the plants are in bloom, and will command a high price. 50c. per original pkt.; 5 pkts. for $2.25.

New Mignonette “Nineteen Hundred.”
One of the greatest acquisitions to the Mignonette family, especially as a pot plant it will prove to be an excellent money maker; well grown plants often have more than 400 flowers spikes on. Very sweet scented and comes true from seed. 20c. per original pkt.; 3 pkts. for 50c.

New Double-Fringed Petunia, “Amabilis”
Extremely handsome large flowered Petunia, with beautifully fringed flowers of a delicate rose, richly veined with bright carmine. The seedlings will produce from 25 to 30 per cent. of double flowering plants. 25c. per original packet.; 5 pkts. for $1.00.

New Ten-Week Stock, “Empress Elizabeth.”
Grows about 18 inches high. The plants throw up a very strong main stem, and branch out in candelabra form. Both main and side stems are covered with large flowers of the brightest carmine rose. The whole plant forms a grand pyramidal-shape bouquet. It comes in early, and produces about 70 per cent of double flowers. An excellent plant for pots, also a cut flower of the very first rank. 20c. per original pkt.; 3 pkts. for 50c.

New Scarlet Sage “Silver Spot.”
(SALVIA SPLENDENS.)
The leaves are rich soft Dark Green, with Light Sulphur or Cream Colored Spots liberally sprinkled over them. The intense bright scarlet flowers are very large, and the plants of neat compact habit and as floriferous as the ordinary sorts. In three years’ trial we found that 85 per cent. came true from seed. Price of original pkts., containing 20 seeds, 25c.; 6 pkts. for $1.25.
BEGONIA BULBS.
Tuberous-Rooted.

Now ready, and should be potted as soon as possible to have strong fine plants for Spring sales. Our bulbs are extra fine and produce very LARGE ERECT flowers of the brightest colors. (Should not be compared with bulbs sold at lower prices.)

Yours very truly,
